PROJECTS

Instagram Clone / *HTML, CSS, JavaScript*   View Project
- Developed a fully functional Instagram clone web application using HTML, CSS, and JavaScript, demonstrating strong front-end development skills and attention to detail.
- Designed responsive feed, displaying users posts and relevant user information.
- Added a reels feature, helping users to get all reels videos easily.

Analog Clock / *HTML, CSS, JavaScript*   View Project
- Created an elegant and responsive design for the analog clock, with three rotating clock hands to display the hour, minute, and second.
- Utilized CSS to style and position the clock hands on the clock face, achieving a visually appealing analog clock appearance.
- Implemented JavaScript to continuously update the clock hands' positions in real-time to reflect the current time accurately.

Weather App / *HTML, CSS, JavaScript*   View Project
- Developed and maintain weather applications for various platforms, ensuring they are user-friendly and visually appealing.
- Integrated weather data from reliable sources, such as APIs and databases, to provide accurate and up-to-date information to users.

Calculator / *HTML, CSS*   View Project
- Developed calculator apps for multiple platforms.
- Ensured accurate mathematical calculations.
